RE: Discussion and Possible Approval of Case P17-0117 “Ocotillo Road and Victoria Lane Preliminary Plat”, a request from Robert Johnson, of Taylor Morrison, for Preliminary Plat approval of a 148 lot, 33-acre single family detached development, located at the northeast corner of Ocotillo Road and Victoria Lane.

DATE: January 10, 2018

STAFF RECOMMENDATION

Staff recommends approval of Case P17-0117 “Ocotillo Road and Victoria Lane Preliminary Plat”, subject to the conditions of approval outlined in this report.

PROPOSED MOTION

Move to approve Case P17-0117 “Ocotillo Road and Victoria Lane Preliminary Plat”, subject to the conditions of approval outlined in the Staff Report.

RELEVANT COUNCIL GOALS

Secure Future

SUMMARY

This proposal consists of a request by Robert Johnson, of Taylor Morrison, for approval of a Preliminary Plat for a 148 lot residential subdivision. The 33-acre project site is currently zoned MDR (Medium Density Residential)/PAD which allows up to 14 dwelling units per acre. The project site is located at the northeast corner Ocotillo Road and Victoria Lane.

HISTORY

April 5, 2000	Town Council approved Case RZ02-99 “Victoria PAD” (Ordinance 180-00) zoning the project site to R-2/PAD.
April 7, 2004	Town Council approved Case RZ03-14 “Victoria PAD” (Ordinance 280-04), which amended Ordinance 180-00, while maintaining the R-2/PAD zoning of the project site.
March 15, 2006	Town Council approves Case RZ05-019 “Victoria PAD” (Ordinance 345-06), amending the “Victoria PAD”, which maintained the R-2/PAD zoning of the project site.
April 19, 2017	Town Council approved a Text Amendment to the Zoning Ordinance, which reclassified the R-2 zoning district to Medium Density Residential (MDR), allowing up to 14 dwelling units per acre.

PROJECT INFORMATION

“Ocotillo Road and Victoria Lane Preliminary Plat”	
Project Name	Ocotillo Road and Victoria Lane Preliminary Plat
Site Location	The project site is located at the northeast corner Ocotillo Road and Victoria Lane.
Current Zoning	MDR (Medium Density Residential)/PAD
General Plan Designation	Town Center Mixed Use (2008 General Plan) Neighborhood (2018 General Plan)
Surrounding Zoning:	
North	C-2/PAD (Queen Creek Marketplace) R1-7/PAD (Victoria Neighborhood)
South	Ocotillo Road C-2/PAD
East	MDR/PAD (Avilla)
West	R1-7/PAD (Victoria Neighborhood)
Gross Acreage:	Approximately 33 acres
Net Acreage:	Approximately 33 acres
Total Lots/Units:	148 lots
Density:	5.64 dwelling units per acre
Open Space Acreage:	
Required	20% (6.6 acres)
Provided	20.38% (6.72 acres)
Active Open Space:	
Required	30% (1.98 acres)
Provided	43.51% (2.92 acres)

DISCUSSION

This proposal consists of a request by Robert Johnson, of Taylor Morrison, for approval of a Preliminary Plat for a 148 lot residential subdivision. The 33-acre project site is currently zoned MDR (Medium Density Residential)/PAD which allows up to 14 dwelling units per acre. The project site is located at the northeast corner Ocotillo Road and Victoria Lane.

The Ocotillo Road and Victoria Lane Preliminary Plat proposes a minimum lot dimension of 45'x115' at a minimum lot size of 5,175 square feet. The MDR zoning district permits densities of up to 14-dwelling units per acre and allows for a multitude of residential types, including single-family detached development, townhomes, and apartments. The proposed lot size meets the MDR dimensional standards outlined in the Town's Zoning Ordinance. The table below summarizes the dimensions, minimum lot size, and lot composition provided in the subdivision. In total, the proposed 148 lots amounts to a density of 5.64 dwelling units per acre. The lot configuration proposed for this subdivision plat meet all dimensional standards for the MDR zoning district.

Ocotillo Road and Victoria Lane Preliminary Plat				
Lot Size	Zoning District	Minimum Lot Size	Number of Lots	% of Development
45' x 115'	MDR	5,175 square feet	148	100%
Total			148 units	100%

The proposed development includes a total of 6.72 acres of open space (20% of the overall development), where 20% is required by the Town's Zoning Ordinance for the MDR zoning district. Of that 6.72 acres, 2.92 acres of active open space is provided (43.51% of total open space), where 30% required by the Town's Zoning Ordinance. The development includes two central neighborhood parks with a tot lot, open turf, ramadas, and walking trails.

Access to the neighborhood is provided at two (2) proposed entrances along Victoria Lane, one at the northern boundary of the site and one at the western boundary of the site. No access is provided along Ocotillo Road. The Traffic Impact Analysis conducted for this project concluded that a traffic signal is warranted at the intersection of Ocotillo Road and Victoria Lane and the applicant is responsible for ¼ of the cost the signal. A right turn deceleration lane has been added along Ocotillo Road, headed westbound, to provide safer, more efficient access to the development.

ANALYSIS

General Plan Review: The project site is designated as Town Center Mixed Use on the 2008 General Plan Land Use Map. The MDR zoning district implements the Medium Density Town Center Mixed Use land use classifications of the 2008 Queen Creek General Plan.

Zoning Review: The current zoning designation for the property is MDR (Medium Density Residential)/PAD, which allows for a density of up to 14 dwelling units per acre. The project is in conformance with the standards set by the Zoning Ordinance.

Preliminary Plat Review: The Preliminary Plat proposes 148 lots on 33 acres at a density of 5.64 dwelling units per acre. The proposed Preliminary Plat meets Town standards.

Adequate Public Facilities: In accordance with Article 5.1 (Adequate Public Facilities) provision of the Zoning Ordinance, the applicant has provided information regarding the project's potential impact on public facilities. Staff review of those reports indicates that adequate public facilities will be provided by the project. Appropriate internal street cross sections and improvements to the existing arterial and mid-section collector streets are provided. The Town of Queen Creek will be the potable water provider and waste water service provider for the property.

The Adequate Public Facilities Ordinance also requires that school district requirements for capacity must be met for each development. The applicant and the Queen Creek Unified School District are currently working on a Donation Agreement to help ensure that adequate public facilities are provided for the proposed development. Once the Final Plat is approved, the property owner will execute the agreed upon Donation Agreement with School District.

Engineering Review: The project has been reviewed by the Town Engineering Division. Conditions of Approval have been added to address the Engineering requirements for this proposed development.

Transportation Review: The subdivision plat has been reviewed and is recommended for approval by the Town's Transportation Engineer. Conditions of Approval have been added to address the Traffic requirements for this proposed development.

Open Space/ Landscape Plan/ Wall Plan Review: The development includes a total of 6.72 acres of open space (20% of the overall development), where 20% is required by the Town's Zoning Ordinance for the MDR zoning district. Of that 6.72 acres, 2.92 acres of active open space is provided (43.51% of total open space), where 30% required by the Town's Zoning Ordinance. The development includes two central neighborhood parks with a tot lot, open turf, ramada, and walking trails.

The project's landscape plans and the wall plans meet the Town's fencing and landscape standards. The project also has a distinctive entry monument sign, which is consistent with the entry monumentation of the existing Victoria neighborhood. Copies of the landscape plan, wall plan, and entry monument exhibits are included in the project narrative.

CONDITIONS OF APPROVAL

1. This project shall be developed and constructed in accordance with all exhibits and attachments submitted by the applicant in conjunction with this case.
2. Developer shall create a Home Owners Association for the maintenance of all landscaping within all open spaces, tracts, trails, collector, and arterial rights-of-way as shown on the Open Space Plan for this project.
3. The development shall conform with the conditions as established by Ordinance 284-04 and modified by Ordinance 345-06.
4. Per Ordinance by Ordinance 284-04, no two-story homes are permitted along any arterial roadway.
5. Per by Ordinance 284-04, the developer shall provide notice by way of CC&Rs, separate notice/flyer/information booklet and notes on the plats to future residents that the project is near a railroad and that this rail line experiences at least 10 trains per day. Further, that for all properties within 300 feet of the rail line, developer shall take a proactive effort to ensure that homebuilders use generally accepted noise/sound attenuation measures for construction of the buildings consistent with the noise attenuation measures adopted with this ordinance.
6. A note shall be placed on the final plat, real estate report and the CC&Rs stating that "this development is adjacent to the Canyon State Academy, an educational facility for at risk youth:"
 - a. This facility does conduct events such as sporting events that will provide outdoor lighting and event noise that may be noticeable from the Victoria development.
 - b. This facility has an approved conditional use permit that would allow construction of an equestrian facility in the future that could include arenas, pastures, and public event spaces for equestrian activities. Town of Queen Creek Case No. SU 01-99.
7. The developer shall provide notice by way of the subdivision plat and CC&Rs, that this project is located near the Phoenix-Mesa Gateway Airport and due to its proximity is likely to experience noises normally and usually associated with the overflight of aircraft.
8. Final plats shall note the potential for objectionable aircraft noise. Specifically, the plat shall note the following: "This property, due to its proximity to Phoenix-Mesa Gateway Airport, is likely to experience aircraft overflights, which could generate noise levels which may be of concern to some individuals. The mix of aircraft consists of cargo, commercial, charter, corporate, general aviation and military aircraft."
9. Sales offices for new single-family residential projects shall provide notice to prospective buyers that the project is located within an Overflight Area. Such notice shall consist of a sign at least 2-foot x 3-foot installed at the entrance to

the sales office or leasing office at the residential project. The sign shall be installed prior to commencement of sales and shall not be removed until the sales office is permanently closed. The sign shall state the following in letters of at least one inch (1") in height: "This subdivision, due to its proximity to Phoenix-Mesa Gateway Airport, is likely to experience aircraft overflights, which could generate noise levels which may be of concern to some individuals. The mix of aircraft consists of cargo, commercial, charter, corporate, general aviation and military aircraft. For additional information contact the Arizona Department of Real Estate at: 602-468-1414 or Phoenix-Mesa Gateway Airport Public Relations Office at: 480-988-7600."

10. Public reports filed with the Arizona Department of Real Estate shall disclose the location of the Airport and potential aircraft overflights. The following statement shall be included in the public report: "This property, due to its proximity to Phoenix-Mesa Gateway Airport, is likely to experience aircraft overflights, which could generate noise levels which may be of concern to some individuals."
11. The construction, alteration, moving, and substantial repair of any human occupied building or structure in the new project shall achieve an exterior to interior Noise Level Reduction (NLR) of 20 decibels (dB) or an exterior to interior NLR that results in an interior noise level of 45 DNL or less. The developer shall submit a signed and sealed letter from a registered architect or engineer certifying that construction materials, methods and design employed to achieve the required noise reduction. A copy of the certification shall be submitted with the application for a building permit.
12. The owners of the new project, including mortgagees, other lien holders and easement holders, shall execute an avigation easement prior to or concurrently with the recordation of any final plat or approval of a final site plan for the new project. The easement shall be in a form approved by the Director of Planning.
13. SRP Power – The applicant shall contact SRP for specific requirements that they may have in addition to the Town requirements. The Town requires all poles less than 69kV to be relocated underground. SRP may require easements outside of Public Right-of-Way.
14. 40 feet of half street of Right-of-Way on Victoria lane for the entire frontage of the property shall be required to be dedicated to the Town of Queen Creek on the Final Plat.
15. Full ½ street improvements shall be required to be designed and constructed for Victoria Lane for all portions of the Right-of-Way adjacent to the property frontage.
16. Full street improvements behind the curb shall be required to be designed and constructed for Ocotillo Road for all portions of the Right-of-Way adjacent to the property frontage.
17. For offsite public improvements the Town requires cash, irrevocable letter of credit (IRLOC), or a bond to cover the costs for construction assurance. The IRLOC and bond are required to be approved by the Town Attorney. The

assurance amount will be determined by an engineer's estimate during the Construction Plan Review. Construction assurance shall be deposited with the Town prior to permits being issued.

18. For onsite public improvements the Town requires cash, irrevocable letter of credit (IRLOC), bond, or a signed Certificate of Occupancy Hold Agreement to cover the costs for construction assurance. The IRLOC and bond are required to be approved by the Town Attorney. The assurance amount will be determined by an engineer's estimate during the Construction Plan Review. Construction assurance shall be deposited with the Town prior to permits being issued.
19. The developer shall be responsible for ¼ cost share (\$75,000) for the traffic signal at the intersection of Victoria and Ocotillo.
20. As a subdivision, this property will be required to obtain an Arizona Department of Water Resources (ADWR) Certificate of Assured Water Supply (CAWS). A copy of the CAWS, or ADWR Exemption, in the builder/ developer's name, will have to be provided to the Town of Queen Creek Water Division. This may be accomplished by transferring a current CAWS, converting an existing Analysis of Assured Water Supply associated with the proposed development, applying for an exemption where applicable, or by applying for a new CAWS in the event that one does not currently exist. The Town of Queen Creek Water Division cannot agree to supply water to the subdivision unless this stipulation is met as the Town of Queen Creek does not have a 100 year assured water designation. The Town has however completed a Physical Availability Determination (PAD) study that has evaluated most properties in the area to determine that the groundwater hydrology can support new development in undeveloped portions of the Town. This information was developed as the technical background needed to obtain a CAWS and can be provided upon request.
21. The project must also enroll as a member in the Central Arizona Groundwater Replenishment District ("CAGRD") program with ADWR in order for the Town of Queen Creek to supply water to the development.
22. Sewer tie-in locations will be finalized with the Final Plat.
23. Manhole easements will be identified and required with the Final Plat.

1. Description of Development Proposal

Taylor Morrison is proposing a single-family residential neighborhood with public streets at the northeast corner of Victoria Lane and Ocotillo Road. The purpose of this request is to submit, process, and obtain approval of a preliminary plat. The attached Preliminary Plat addresses issues and challenges associated with the physical site.

The proposed project is a single family detached residential neighborhood consisting of a single Parcel of land within the Town of Queen Creek, containing approximately 32.97 acres. The parcel is identified on the Maricopa County Assessor's map as parcel 304-67-958A. The proposed project is located in Township 2 South, Range 7 East, in Section 16 of the Gila and Salt River Base and Meridian, Maricopa County, Arizona.

The intent is to develop a single family residential neighborhood with an approximate total of 148 lots with a typical lot size of 45' x 115'. The proposed development will have a net density of 5.64 dwelling units per acre. Access to the development will be provided from Victoria Lane to the north and west of the proposed site.

The proposed Preliminary Plat addresses all relevant site issues, constraints, challenges, and requirements such as site access, site vehicular circulation, site drainage, site utilities, and site open space (See Exhibit A).

2. Conformance to General Plan and Zoning

The project site was originally zoned to R-2 in April 2000 as part of the Master Victoria PAD. In April 2017, the Town Council approved a Text Amendment to the Zoning Ordinance which reclassified the R-2 zoning district to Medium Density Residential (MDR), which allows for development up to 14 dwelling units per acre. The proposed project has a net density of 5.64 dwelling units per acre. The MDR zoning district allows for a variety of different residential development including apartments, townhomes, single-family attached, and single-family detached. This project proposes a single-family detached development.

3. Existing Conditions

The proposed site is currently vacant land located in the center of Queen Creek, Arizona. The site is located in a portion of the south half of Section 16, Township 2 South, Range 7 East of the Gila and Salt River Meridian, Maricopa County. The site is bordered to the south by Ocotillo Road and to the north and west by Victoria

Lane and existing residential development. Two partially developed parcels owned by NexMetro Victoria II LLC are located to the east of the site.

There is an undefined electrical transmission easement near the eastern property line. Towards the southern portion of the site there is an 8' overhead power and facilities easement and along the southern site boundary there is a 20' easement for electrical, communication facilities, and incidental purposes.

4. Surrounding Properties

The site is bound by existing residential development to the north, south, and west. Two partially developed parcels owned by NexMetro Victoria II LLC are located to the east. Queen Creek Marketplace is located northeast of the site and a park and green space is located at the northwest corner of the site. Ocotillo Road runs along the southern boundary and Victoria Lane borders the north and west of the site. The adjacent roadways are fully improved along the south and west, including sidewalk. Improvements will be required for Victoria Lane along the north.

5. Utilities and Services

A table is provided below listing each of the utility providers:

UTILITIES TABLE

Utility	Provider
Water	Town of Queen Creek
Wastewater	Town of Queen Creek
Cable TV/Telephone	Cox Communications
Electric	Salt River Project
Gas	Southwest Gas Corporation

6. Community Facilities and Services

Taylor Morrison and the Queen Creek Unified School District are currently working on a Donation Agreement to help ensure that adequate public facilities are provided for the proposed development. Taylor Morrison does not own the property and per the purchase agreement the closing date will not occur until the Final Plat has been approved. Once the Final Plat is approved and Taylor Morrison closes on the property they will execute the agreed upon Donation Agreement with School District.

The following outlines the community service providers:

COMMUNITY SERVICES TABLE

Service	Provider
Schools	Desert Mountain Elementary, Newell Barney Middle School, Queen Creek High School
Libraries	Queen Creek Library, 21802 S Ellsworth Rd, Queen Creek, AZ 85142
Police	Maricopa County Sheriff's Department-MCSO District 6
Fire	Town of Queen Creek
Refuse	Parks and Sons

7. Drainage

The site is relatively flat, and has previously been cleared and rough graded. There is an existing retention basin at the northwest corner of the property. There is a storm drain and headwall located at the southeast corner of the site within a shallow retention basin. The storm drain conveys flow from Ocotillo Road. There are two wells registered on or near the project site according to the Arizona Department of Water Resources Well Registry Interactive Map.

8. Water and Sewer

The Town of Queen Creek water and wastewater systems exist in the area and are proposed to serve the development with Town of Queen Creek standards and required infrastructure improvements. The onsite water distribution system will consist of a looped 8-inch public waterline. The onsite sewer collection system will be 8-inch diameter sewer mains.

9. Circulation

Proposed interior traffic circulation, both vehicular and pedestrian, will be integrated with the already existing facilities in the area. The proposed community will have public streets. Two entrances to the site will be located off of Victoria Lane to the west and north.

10. Street Tree Installation

Based on the planting and spacing requirements within the approved landscape plans, street trees in front of each lot will be installed at the completion of home construction and prior to the issuance of a certificate of occupancy. In order to aid in the planting material maturing at the same rate, lots within the community will be released for home sales in groups (See Exhibit B). Lots within another group will not be offered for sale to the public until the lots are completely sold out within the current release.

11. Conclusion

The development team believes that this request represents an appropriate and favorable planning of the site. We look forward to working with staff in the processing of this project.

Exhibit A

Preliminary Plat

NOTES

1. THIS SUBDIVISION SHALL COMPLY WITH THE ZONING ORDINANCE GUIDELINES FOR PLANNED AREA DEVELOPMENTS.
2. ALL NEW OR RELOCATED UTILITIES WILL BE PLACED UNDERGROUND.
3. DEVELOPMENT AND USE OF THIS SITE WILL CONFORM TO ALL APPLICABLE CODES AND ORDINANCES.
4. ALL MAILBOXES ARE REQUIRED TO BE DECORATIVELY TREATED.
5. A MINIMUM OF 30% OF OPEN SPACE SHALL BE DESIGNATED AS ACTIVE RECREATION SPACE (TOT LOT PLAY AREAS, WALKING / BIKE TRAILS, ACTIVITY / PLAY LAWNS).
6. LOTS 104, 113-120, 126, 127, 132, AND 141-148 WILL BE RESTRICTED TO SINGLE STORY HOMES.

PROJECT DESCRIPTION

THIS PROJECT IS PROPOSED AS A SINGLE FAMILY DETACHED RESIDENTIAL DEVELOPMENT. THE PROJECT PROPOSES A TOTAL OF 148 LOTS WITH PUBLIC STREETS AND PUBLIC UTILITIES. STANDARD LOT SIZES ARE 45'X115'. THE EXISTING ZONING IS MDR-PAD.
