Ms. Clark summarized the request for a Minor General Plan Amendment and Rezone to accommodate a Planned Area Development with the underlying zoning districts of R1-5, R1-18, C-2, and Agritainment. Ms. Clark presented the proposed development plan for the project, which included a 47-lot gated community, three commercial sites, an LDS church, a reception center, a greenhouse, and demonstration gardens. Ms. Clark presented 3D exhibits provided by the applicant which illustrate the demonstration garden concept. Ms. Clark noted that the applicant is requesting to allow a reception center as a permitted use in the Agritainment district. Ms. Clark stated that a Neighborhood Meeting was held on March 5, 2018 with 35 members of the public in attendance who were generally supportive of the request. Seven residents submitted comment cards expressing their support for the proposed project.

Randy Carter of Sketch Architecture introduced the proposed project and introduced Lonnie McCleve, property owner and applicant.

Justin Rohner, member of the project team, summarized the components of the Agritainment portion of the project including the lake, stream, demonstration gardens, greenhouse, and future reception center. Chairman Arrington inquired: who maintains the demonstration gardens? Mr. Rohner responded, stating that demonstration gardens are maintained by certified agriscaping technicians. Commissioner Spall inquired: will homeowners be able to grow food in the demonstration gardens? Mr. Rohner responded, stating that due to food safety laws, they will not be able to but, homeowners will be able to learn how to grow crops on their own properties. Commissioner Alleman inquired: will the gardens be available to the public? Mr. Rohner responded, stating that there are opportunities for the public to access the demonstration gardens and access will be funneled through the main entrance.

Commissioner Young inquired: will the reception center be a wedding reception area? Mr. McCleve responded, stating that it would be a wedding reception center, but there are a number of other anticipated uses. Commissioner Young asked if there would be music playing outside that might affect the neighborhood. Mr. McCleve responded, stating that there would be music at times, and the project will comply with the Town's sound ordinances. Mr. McCleve added that it is anticipated that most events will be held indoors. Mr. McCleve also noted that the "grandfather tree" located at the northern edge of the property will be a small venue to hold weddings.

Mr. McCleve summarized the residential component of the project which would be intended as a "lock and leave" subdivision where the HOA would maintain front yard landscaping. Commissioner Sossaman inquired: are the streets private? Mr. McCleve responded, stating that the streets were private. Commissioner Sossaman inquired: what is the square footage of the reception center? Mr. McCleve responded, stating that they do not have a design yet, but the square footage as shown is 14,000 square feet. Commissioner Sossaman inquired: a reception center of that size could accommodate how many people? Mr. McCleve responded, the reception center will be an element of the site but it may also include a workout gym for residents or something that may tie into the Agritainment use. Commissioner Sossaman asked if parking will be shared with the church to accommodate a 300 – 400 person event. Mr. McCleve responded, stating that yes parking will be shared with the church and as part of that agreement, events at the reception center will not be scheduled when there is an event conflict with the church.

Mr. McCleve added that the Pecans and Pecan Lakes residents will have access to the commercial properties on the project site and east of the project site through trails provided between the developments.

Commissioner Young inquired: what commercial uses are envisioned for the commercial sites? Mr. McCleve noted that there is a restaurant which provides catering and bakery uses that is expected for the site, a coffee or juice use is envisioned for another commercial lot, but the retail users are not yet known at this time.

Ms. Clark stated that there was an error in the motion provided in the Staff Report and clarified the language if the Planning Commission moved to recommend approval of the request.
