### THROUGH: BRETT BURNINGHAM, INTERIM DEVELOPMENT SERVICES DIRECTOR

### FROM: SARAH CLARK, SENIOR PLANNER

RE: Discussion and Possible Action on Case P17-0181 "Fulton Homes at Barney Farms Residential Design Review". Fulton Homes is requesting approval of 32 new standard plans with four (4) elevations each to be constructed on 1,702 lots in the Barney Farms development. Barney Farms is generally bounded by Meridian Road to the east, Queen Creek Road to the south, the Signal Butte Road alignment to the west, and approximately 770 feet south of Germann Road to the north.

### DATE: March 13, 2019

### STAFF RECOMMENDATION

Staff recommends approval of P17-0181 "Fulton Homes at Barney Farms Residential Design Review", subject to the Conditions of Approval outlined in this report.

### PROPOSED MOTION

Move to approve P17-0181 "Fulton Homes at Barney Farms Residential Design Review", subject to the Conditions of Approval outlined in this report.

### **RELEVANT COUNCIL GOALS**

### SUMMARY

The proposal consists of a request by Fulton Homes for approval of 32 floor plans with four (4) distinct elevations to be built on 1,702 lots in the Barney Farms development. The 32 proposed plans are categorized into four (4) different product series to be constructed on the four (4) lot sizes (48' x 120', 53' x 120', 58' x 125', 70' x 120') contained in the subdivision. All lots are zoned R1-5 (Urban Development District) with a PAD

overlay. Floor plans range in size from approximately 2,615 square feet to 5,961 square feet.

|                   | Proposed Home Width | 55'                           |

### DISCUSSION

Fulton Homes is proposing 32 standard plans, divided into four (4) product series, with eight (8) plans per series. Sixteen of the 32 plans are single-story, and the other 16 of the proposed plans are loft plans.

Each plan offers four (4) elevation styles with four (4) color schemes per elevation (16 color schemes in total) and incorporate four-sided architecture. According to the Applicant, the proposed elevations include:

- Spanish: The "Spanish" elevation includes decorative tile accents, arch details, decorative corbels, themed wing walls, wood fascia, decorative metal railings, and barrel tile roof.
- Cottage: The "Cottage" elevation includes decorative brackets, shutters, stone, winged walls, clipped roof details, and dormers.
- Craftsman: The "Craftsman" elevation includes board and batten siding, decorative outlookers, river rock, craftsman style columns, and decorative shutters.
- Farmhouse: The "Farmhouse" elevation includes brick veneer, horizontal lap siding, dutch gable roof details, and decorative brackets.

The proposed home designs complement existing homes within Queen Creek, and in the surrounding neighborhoods in character and design. The 32 standard plans offer foursided architecture and comply with the Town's Zoning Ordinance and Design Guidelines for single-family residences. A mix of gable, hip, dutch gable roofs, dormers, and craftsman style outriggers have been utilized on each plan to help create architectural diversity between plans and elevations at all four sides of the home. All homes incorporate garages that are set back a minimum of five feet from the plane of a living area and include standard brick driveway pavers in order to help minimize garage dominance.

### **GENERAL ANALYSIS**

### **Standard Plans Design Review for New Standard Plans:**

The proposed standard plans all comply with Town of Queen Creek Zoning Ordinance and Design Standards, subsection DS.4 Single-Family Residential Standards. The standard plans presented by Fulton Homes contain a variety of quality materials and are consistent with approved plans within the immediate area.

### Lot Fit Analysis:

Staff has reviewed the lot fit analysis for the 32 new standard plans. All plans fit on all lots within their associated assigned lot sizes.

### **CONDITIONS OF APPROVAL**

- 1. This project shall be developed in accordance with the plans and exhibits attached to this case and all the provisions of the zoning ordinance applicable to this case.
- 2. This project shall be developed in accordance with the plans and exhibits attached to this case and all the provisions of the zoning ordinance applicable to this case.
- 3. The same elevation may not be utilized adjacent to or across from another.
- 4. All lots shall include standard driveway pavers.
- 5. The following statement shall be included in the public report: The construction, alteration, moving, and substantial repair of any human occupied building or structure in the new project shall achieve an exterior to interior Noise Level Reduction (NLR) of 25 decibels (dB) or an exterior to interior NLR that results in an interior noise level of 45 DNL or less. The developer shall submit a signed and sealed letter from a registered architect or engineer certifying that construction materials, methods, and design were employed to achieve the required noise reduction. A copy of the certification shall be submitted with the application for a building permit.
- 6. Sales offices for new single-family residential projects shall provide notice to prospective buyers that the project is located within an Overflight Area. Such notice shall consist of a sign at least two foot by three foot (2' x 3') installed at the entrance to the sales office or leasing office at each residential project. The sign shall be installed prior to commencement of sales and shall not be removed until the sales office is permanently closed. The sign shall state the following in letters of at least one inch (1") in height: "This subdivision, due to its proximity to Phoenix-Mesa Gateway Airport, is likely to experience aircraft overflights, which could generate noise levels which may be of concern to some individuals. The mix of aircraft consists of cargo, commercial, charter, corporate, general aviation and military aircraft. For additional information contact the Arizona Department of Real Estate at: (602) 468-1414 or Phoenix-Mesa Gateway Airport Public Relations Office at: (480) 988-7600."
- 7. The Public Sales Report and final plat(s) shall include a statement that this property is located in proximity to land designated for development as industrial, commercial, and/or multi-family uses and may be subject to potential noise

intrusion vibrations dust and all other affects that may be associated with such uses.

- 8. The Developer shall provide for a waiver agreement, which shall run with the land, for each initial homebuyer to sign and shall include the following statement in the waiver agreement: "This property is located in proximity to adjacent to land designated for development as industrial, commercial, and/or multi-family uses and may be subject to potential noise intrusion vibrations dust and all other effects that may be associated with such uses. The owner does release and discharge the Town of Queen Creek, the Developer, and the Homebuilder from any liability from any claims for future damages and complaints of any kind to persons or property that may arise at any time in the future from the development of such uses".
- 9. The owner/developer shall acknowledge and disclose to any subsequent purchaser or tenant that the subject property may be subject to attendant noise, vibrations, and all other effects that may be caused by the heavy industrial/manufacturing uses that are located north of Germann Road in the City of Mesa. The owner/developer shall provide for a waiver agreement for an any subsequent purchaser to sign which shall run with the land and include the following statement: "The subject property may be subject to attendant noise, vibrations, dust, and all other effects that may be caused by nearby existing and future heavy industrial/manufacturing uses. The Purchaser does release and discharge the Town of Queen Creek, the owner, and developer from any liability from any claims for future damages and complaints of any kind to persons or property that may arise at any time in the future from the operation of such uses."

## **Fulton Homes at Barney Farms**

Town of Queen Creek

Fulton Homes takes pride in being one of Arizona's largest homebuilders with a history of creating coveted communities for over the past 40 years. During that time, we have built a strong and successful reputation of building enduring homes and neighborhoods that our home buyers take pride in and that enhance the communities that we build in. At Fulton Homes, we constantly strive to provide our homeowners with the best value, from superior construction and design all the way through customer service. We believe that our company is built upon our satisfied homeowners that often become repeat buyers, as well as the first time home buyers choosing us as the builder of their dreams.

Building upon this tradition, Fulton Homes is proud to introduce its newest community of Barney Farms within the Town of Queen Creek. This latest community has been envisioned to espouse the vision and expertise we value as a homebuilder while aligning with the prevalent rural character of Queen Creek and the legacy of the local Barney Family.

From the very early planning stages, forethought went into developing the design elements that unified a cohesive community, from site planning and open spaces to amenities and housing types. These elements were imagined to build upon the prevailing regional character while offering lifestyles that homeowners in this community would value and embrace.

A significant part of this plan was to embrace the relationship of this community to the history and legacy of this unique place. Large open spaces and landscape themes pay homage to its agrarian past. Thematic pocket parks and common space are intertwined within the development locating these outdoor features for access through out. Central to the concept is an 11 acre community park that serves as a common and unifying feature that would be a part of every homeowner's daily experience. Along with the park, is a 22 acre lake allowing recreational activities and vistas unique to this community. Within the shared open spaces are neighborhood amenities from gathering structures and play fields to a pool complex and trail system. These desirable and their neighbors while further providing value to the overall community.

Architecture themes paid homage to this regions' history with indigenous agrarian styles. These themes are consistent from community features, parks and amenities to the homes themselves. It was important for the entire development to espouse the prevailing and unifying theme of this place and its surroundings.

Our desire was to create an enduring community with reverence to its location and history while providing for modern sustainable lifestyles and conveniences desired by today's families.

Within Barney Farms, we will be introducing four new series of distinctive home designs envisioned to provide quality affordable homes that offer unique yet desirable lifestyles sought by today's home buyers.

Fulton Homes at Barney Farms will offer the following home series:

The **Plantation** series, to be constructed on 70'x130' lots in Parcels 4, 7 & 11, for a total of 237 lots will be our largest most luxurious, executive home offering. This series offers 8 original floor plans, each with 4 distinct architectural characters that range in size from 2,740 to 4,595 sq.ft. This new 55' wide series consists of 4 single-story homes and 4 single-story with loft homes, all with unique 4-car garages.

The **Groves** series, on 58'x125' lots in Parcels 1, 6 & 12, for a total of 396 lots, provides a wide offering appealing to the move-up family home market. This series offers 8 original floor plans, each with 4 distinct architectural characters that range in size from 2,407 to 3,595 sq.ft. This new 45' wide series consists of 4 single-story homes and 4 single-story with loft homes all with 4-car garages.

The **Orchards** series, on 53'x120' lots in Parcels 3, 8 & 13, for a total of 339 lots are designed to appeal to both empty nesters and the family home market. This series offers 8 original floor plans, each with 4 distinct architectural characters ranging in size from 2,045 to 3,168 sq.ft. This new 40' wide series consists of 4 single-story homes and 4 single- story with loft homes, all with 3 car garages.

The **Meadows** series, on 48'x120' lots in Parcels 2, 5, 9, 10 & 14, for a total of 730 lots are designed to attract the starter family and the affordable home buyers into the community. This series offers 8 original floor plans each with 4 distinct architectural characters ranging in size from 1,691 to 2,659 sq.ft. This new 35' wide series consists of 4 single-story homes and 4 single-story with loft homes, all with 3-car garages.

Between the four series, there are 32 new floorplans available, each with 4 distinctive elevation styles, providing a total of 128 uniquely designed homes over our 1,702 lots.

These inviting and adaptable home designs reflect traditional neighborhood design principles and aesthetics. Forethought has gone into the integration of porches, recessing garages, and building masses to encourage a pedestrian experience while reducing the dominance of automobiles. Available 3 and 4-car garages allow homes with sufficient parking to maintain cars out of driveways and streets with brick pavers installed as a standard feature for all driveways and walkways throughout the development. Varied roof configurations, porches and dormers reinforce traditional architectural characters while providing diverse single story home designs. Another unique addition to this community is the availability of loft style floor plans utilized within our single story roofs. On half of our homes designs, we have the ability to provide additional living spaces with a loft to increase the home size for our buyers. It is our intent that these lofts homes seamlessly coincide throughout the community as single story homes. These design features will work together to enhance the traditional pedestrian character and scale of the neighborhood.

Envisioned to complement the unique character of Queen Creek, we are offering 4 distinct architectural characters that reflect a regional identity. These historic characters provide our buyers a wide selection of appealing exteriors while reinforcing a diverse community.

Our architectural characters offer the following identifiable features:

**Spanish** - Historic to this region, it is best known for its eclectic, informal and sculptural appearance. This style has predominately hipped and gabled roofs with barrel style tiles and light colored stucco walls. It is further enhanced with arches, decorative buttress walls, colorful tile accents, molding trims and tile vents.

**Cottage** – Characterized by a more formal and crafted appearance, this style evolved from earlier picturesque manor houses. This traditional vernacular has adapted to our region through simple massings with hipped and clipped gable roofs and refined details including low arches, decorative wing walls, molding trims, shutters, dormers and smooth flat roof tiles.

**Craftsman** - Distinguished by its crafted appearance and use of natural materials, this style evolved from the early American Arts and Craft movement. This vernacular is known for its inviting front entry porches with wide columns and simple gable roofs with textured flat roof tiles, detailed with batt and board siding with outriggers. The use of river rock detailing enhances this characters charm.

**Farmhouse** - This western adapted style has a history in traditional country homes. This more rustic, rural version incorporated native materials while maintaining some refined features including brick veneer, shutters and horizontal lap siding materials. It is further enhanced with porches, simple Dutch style gable roofs and dormers with flat textured roof tiles.

All homes will further embrace unique appearances with the availability of optional plan features and distinct color schemes developed for each style. Each of our 4 elevation styles will have a selection of 4 color schemes with varying roof tile, diverse stone or brick veneers, and unique color placements for a total of 16 color combinations.

Significant diversity within each series will be reinforced by the use of varying building elements including roof configurations, materials and details that are unique to each architectural character. Individual features like garage doors, coach lights and window pattern designs will also be offered to further enhance distinction between the homes and throughout the community. Additionally, Fulton Homes pre-plots elevation selections to assure an even mix of elevations throughout the community.

In review of our floor plan street scenes and lot fits, you will see that special care has been given to create a built-in stagger, lot to lot, by placing garages behind the front plane of living areas, porches or side turned garages at varying depths on 100% of the plans. Of the 32 total plans available, 26 of them have significant front porches as part of the most forward feature on the home. As we pre-plot our communities, we pair up driveways and stagger across the street to break up the rhythm of the street scene.

In additional to all the product features provided and outlined above, we propose the following allowances as part of our product framework:

In lieu of a standard landscape package, all our homeowners will receive an escrow hold back budget for them to do their landscape and given a time frame for completion, monitored by the HOA management company. We encourage our buyers to meet with our preferred landscape company to install their front yards. This ensures we have a diverse community, eliminating the sameness of those builders installing standard packages and allows our buyers to personalize their individual homes. Our landscape company can also assist them in their back and side yards and be able to put it in their mortgage, through our landscape option program. Fulton Homes will show a variety of front and back yards in our model complexes, all will be available for homeowner purchase.

Fulton Homes has created a charming and visually diverse product line that we feel will enhance the surrounding community and appeal to today's home buyers. Our intent is to meet or exceed the Town of Queen Creek's general requirements and design standards. We believe the unique combination of our projects creativity along with our exceptional standard of quality will create an attractive and desirable neighborhood that will maintain a high standard of development for the Town of Queen Creek and the community of Barney Farms.

### **DRIVEWAY & WALKWAY APPLICATION**

All product lines at Barney Farms will have standard brick pavers on all Driveways and all Walkways. We will be using Belgard Cambridge Cobble in Desert Blend. The installed pattern will be a 3 Piece Combo Random Pattern. Refer to the Color Elevations Exhibit #9 for how they all lay out per plan and per series.

All four product lines at Barney Farms will have 4 elevations. Each elevation will have its own standard garage door style with windows and coach lights.

### BARNEY FARMS FRONT YARD LANDSCAPE GUIDELINES

Landscaping is required for all residential front yards and street side yards visible from neighboring properties, streets, and common area.

### Timeline:

Owners of Lots must submit front-yard landscaping plans within 30 days of close of escrow to the Homeowners Association Design Review Committee.

All front yard landscaping must be completed within 120 days of close of escrow. All owners are eligible to receive reimbursement of the compliance deposit posted by Fulton Homes in the following amounts if they complete their landscaping in accordance with these guidelines.

\$1,750 for Calistoga \$2,000 for Silverado \$2,250 for North Shore \$2,500 for Sonoma Coast

Failure to meet either the submittal deadline or the completion deadline will result in forfeiture of the compliance deposit.

#### Submittal Requirements/Process

All landscape designs and improvements for front yards (and side yard of all corner Lots) must be approved by the Design Review Committee, prior to the beginning of construction or installation.

**Themes:** The plant material for front yard and street side yard landscaping shall be consistent with the landscape theme established throughout the community. Therefore, predominantly desert landscape themes will be prohibited.

**Trees:** All front yards are required to have a minimum of one 24" box tree for every 1,500 square feet of landscapable area (excluding walkways, driveways, patios, etc). Homeowners may elect to install additional trees in their front yard provided they use a minimum 20' spacing between tree trunks and are not in conflict with any utilities. Please refer to the recommended tree list.

**Turf:** The use of turf is encouraged. All turf areas are required to be 'sodded'. Sod must be a hybrid Bermuda grass from a local reputable turf farm. Turf may not abut any property line.

A moisture barrier is required when turf is installed adjacent to driveways, walkways, and public sidewalks. Positive drainage must be maintained away from home, walkways, driveways, and over public sidewalks.

Artificial turf will be accepted, provided that the turf is of a natural appearance with a multi-color brown thatch blend and the proposed product carries a minimum 10 year warranty and is professionally installed.

**Plants:** For all non-turf areas, a minimum of two shrubs or accent plants are required per 100 sf of landscapable area. Only 5-gallon plants will be considered. Plants must be installed on both sides of driveway.

A minimum of 40% of the front and side street yards (excluding walkways, driveways, patios, etc.) will be covered with live plant material (at maturity) or grass based on the above requirements for turf and or plants. In addition, any trees shrubs or annuals selected should enhance the aesthetic appeal of walls, planters, walks, etc.

**Granite**: The only color of landscape rock that will be permitted in each front yard is <sup>3</sup>/<sub>4</sub>" Apache Brown. Lava rock and/or cinder rock and wood chips are prohibited. All rock areas shall be treated with preemergent weed control at regular intervals to retard weed growth. Planting underliner is prohibited. River rock is prohibited.

A single river run will be considered provided it is lined with granite rip rap of a color that complements the granite used throughout the front yard and no less than 3" in size. In addition, no river run may extend closer to the front sidewalk than 3 feet.

**Irrigation:** All landscaping on both sides of the driveway is to be irrigated by means of an automatic underground irrigation system. A drip system for trees and plants is encouraged for water conservation. Pop-up sprinkler heads are encouraged for use in the turf areas. Valves are to be installed underground and covered with a valve box.

**Mounding:** Mounds should be a maximum of 24" in height and have natural looking shapes. Berms must not divert drainage in any way.

**Boulders:** The use of accent boulders is encouraged. The boulders shall all be surface select in color, no less than 3 ft. in diameter and be a minimum of 250 pounds in weight. All boulders are to be buried 1/3 in the ground.

**Border material**: The community encourages the sharing of common granite between neighbors and therefore, the use of border material along property lines is prohibited. Brick, concrete and flagstone borders are approved border materials for containing sod and granite areas and must be of a natural color. Borders may not be painted. Metal or plastic edging is prohibited.

**Lighting**: Landscape accent lighting is encouraged. Lighting shall be shielded such that the light shines primarily on the Lot and should be shielded with plants or walls when possible. Colored lights are prohibited.

**Decorative Walls:** Masonry planter and decorative walls must be no taller than 30" in height. Any wall not made from stone or brick shall be painted and stuccoed to match the house. Any stone or brick used in decorative walls should match the stone or brick being used in the community.

Artifacts: Artifacts/Statuary/Yard Ornaments: Wagons, wagon wheels, barrels, wishing wells, statuary, etc., are not permitted in front of any home.

These Design Guidelines for Landscaping may be amended by the Design Review Committee from time to time by a majority vote of the Design Review Committee.

### LANDSCAPE

In lieu of a standard landscape package, all our homeowners will receive an escrow hold back budget for them to do their landscape, and given a time frame for completion. We encourage our buyers to meet with our preferred landscape company to install their front yards. This ensures we have a diverse community, eliminating the sameness of those builders installing standard packages and allows our buyers to personalize their individual homes. Our landscape company will also assist them in their back and side yards and be able to put it in their mortgage, through our landscape option program.

Fulton Homes will show a variety of front and back yards in our model complexes, all will be available for homeowner purchase. This includes many hardscapes, consisting of fountains, fire pits, built-in BBQ with entertainment seating, ramadas, etc.

A sample street scene might look like:

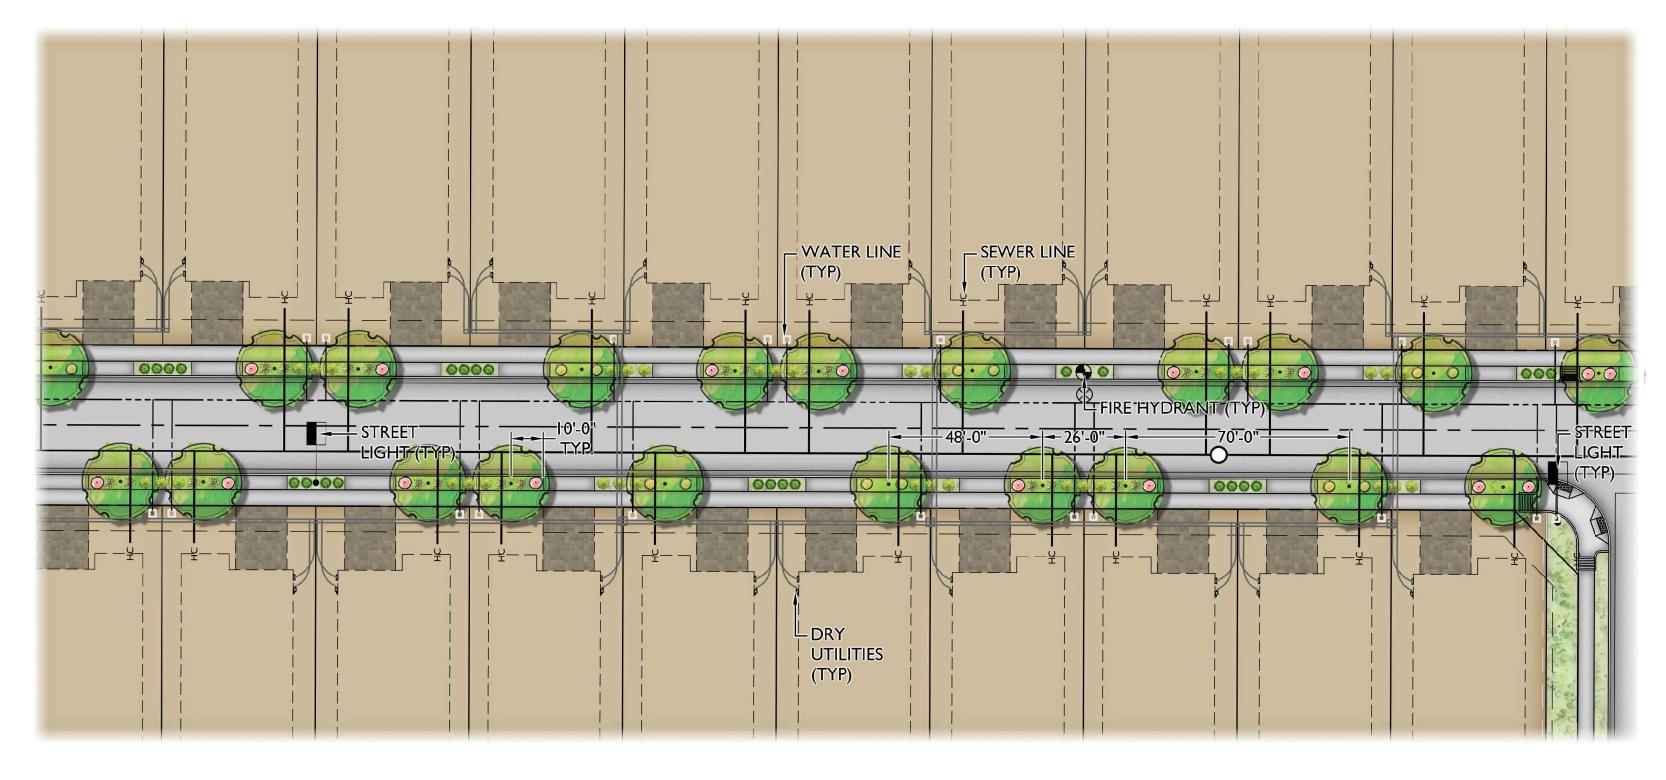

Front Fountains, Post Lights, Courtyard

Large Pots, Turf with Borders, Granite

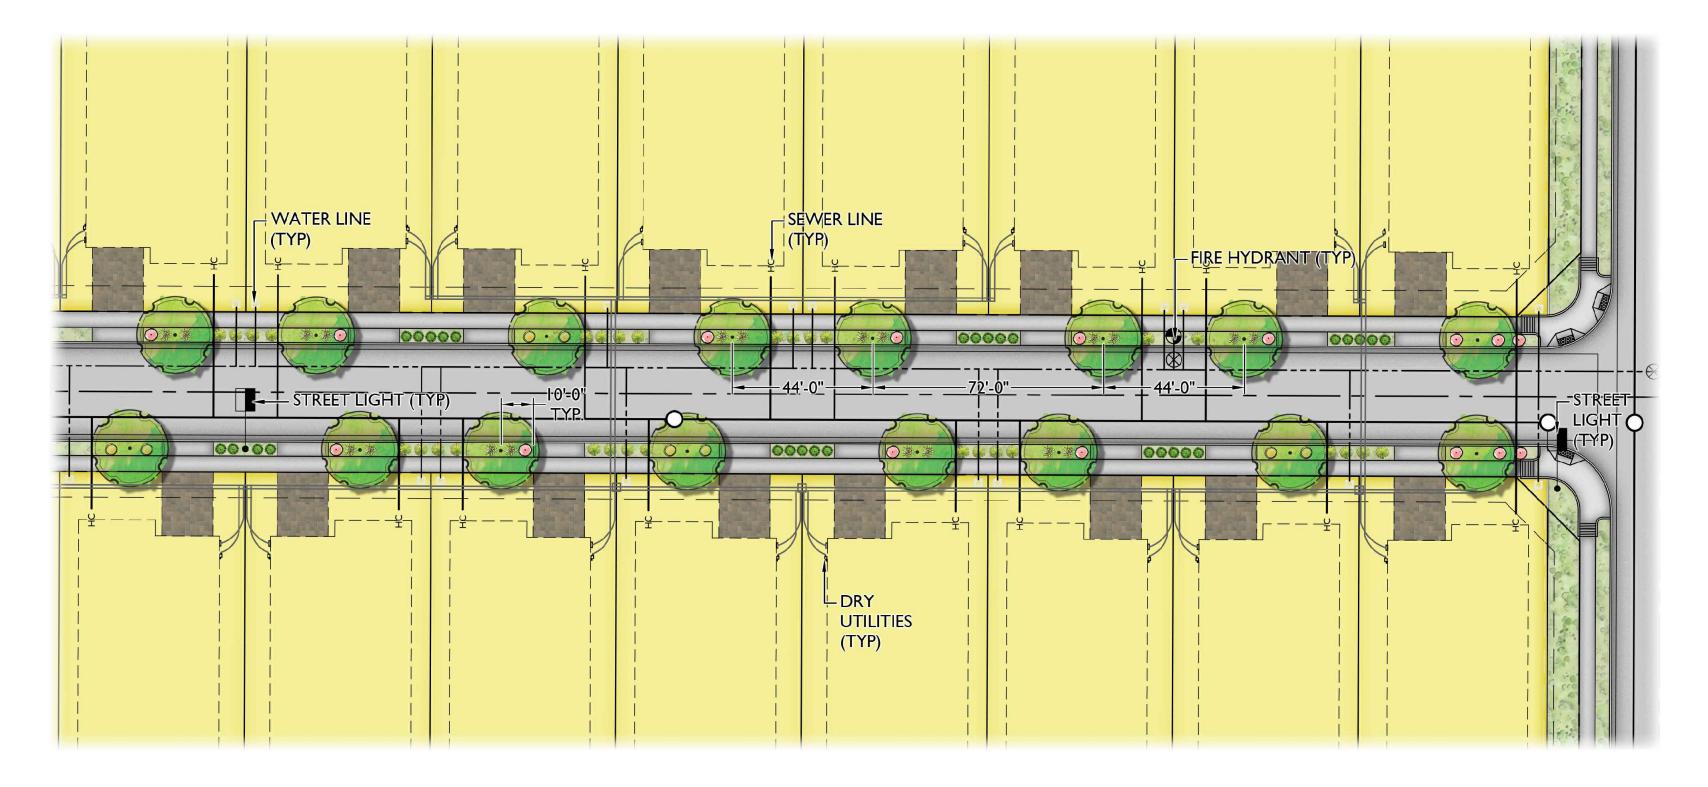

Columns with Iron Work

Possibilities are endless.

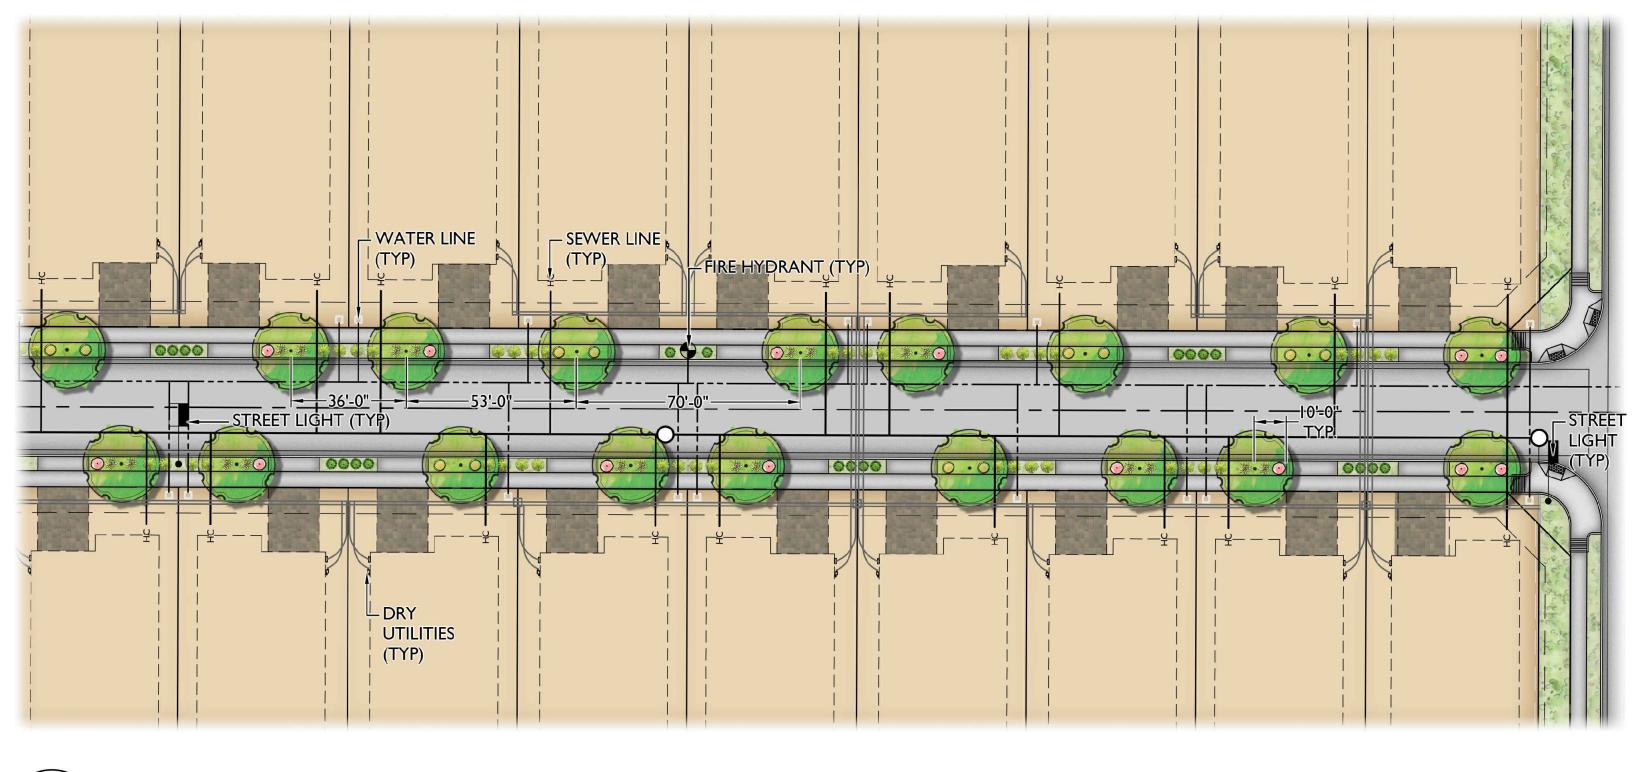

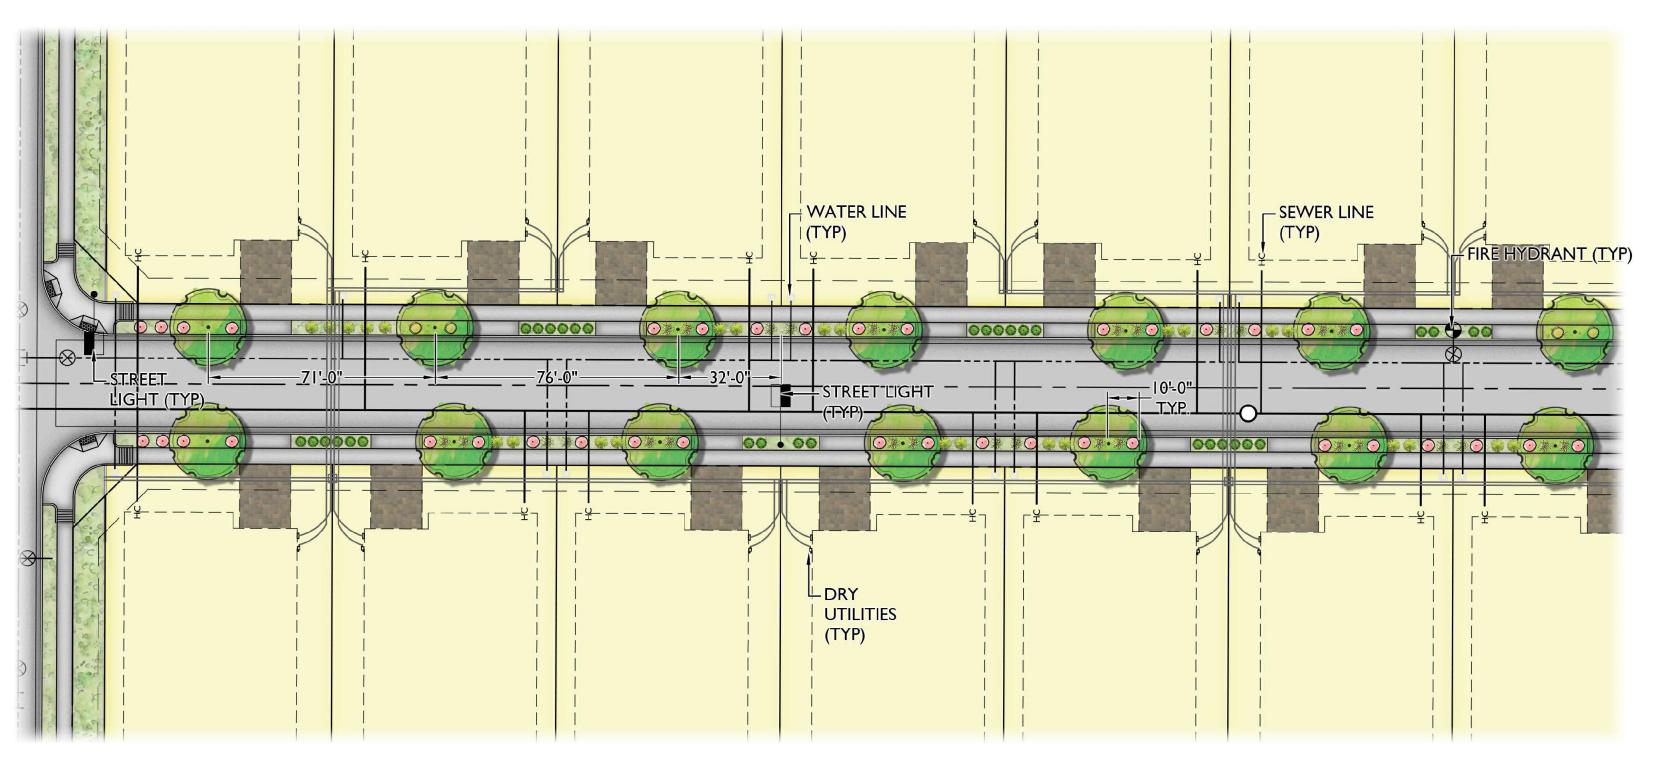

3

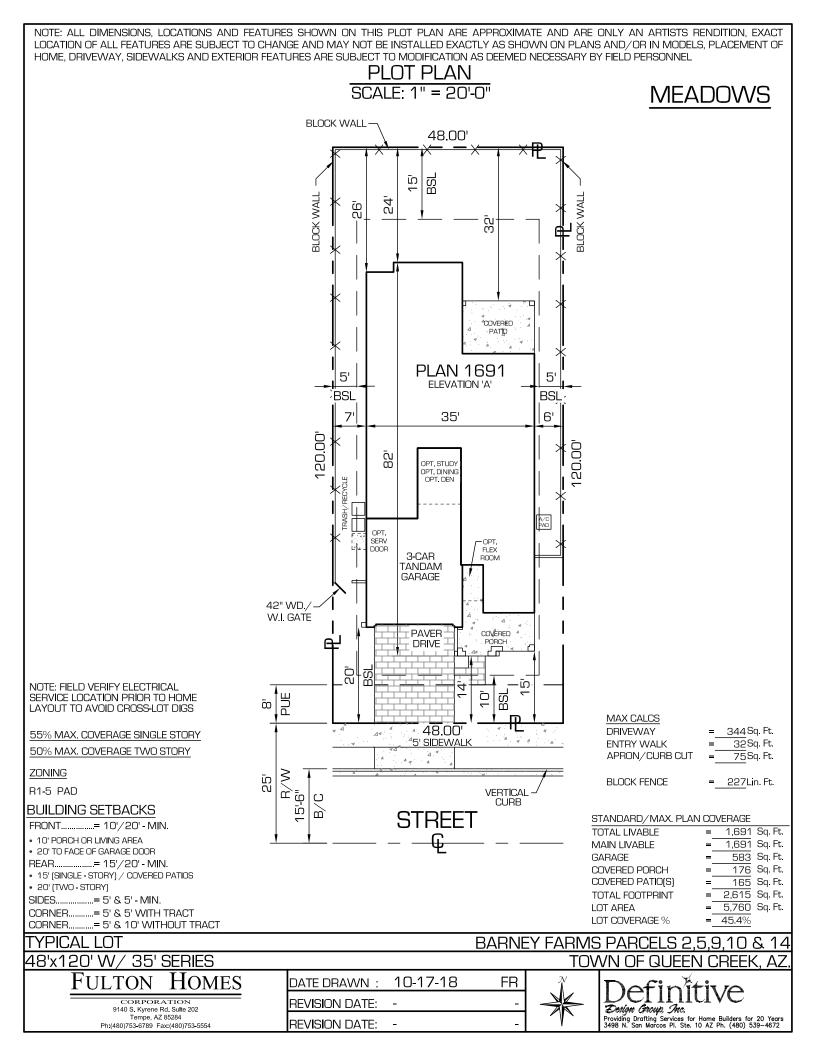

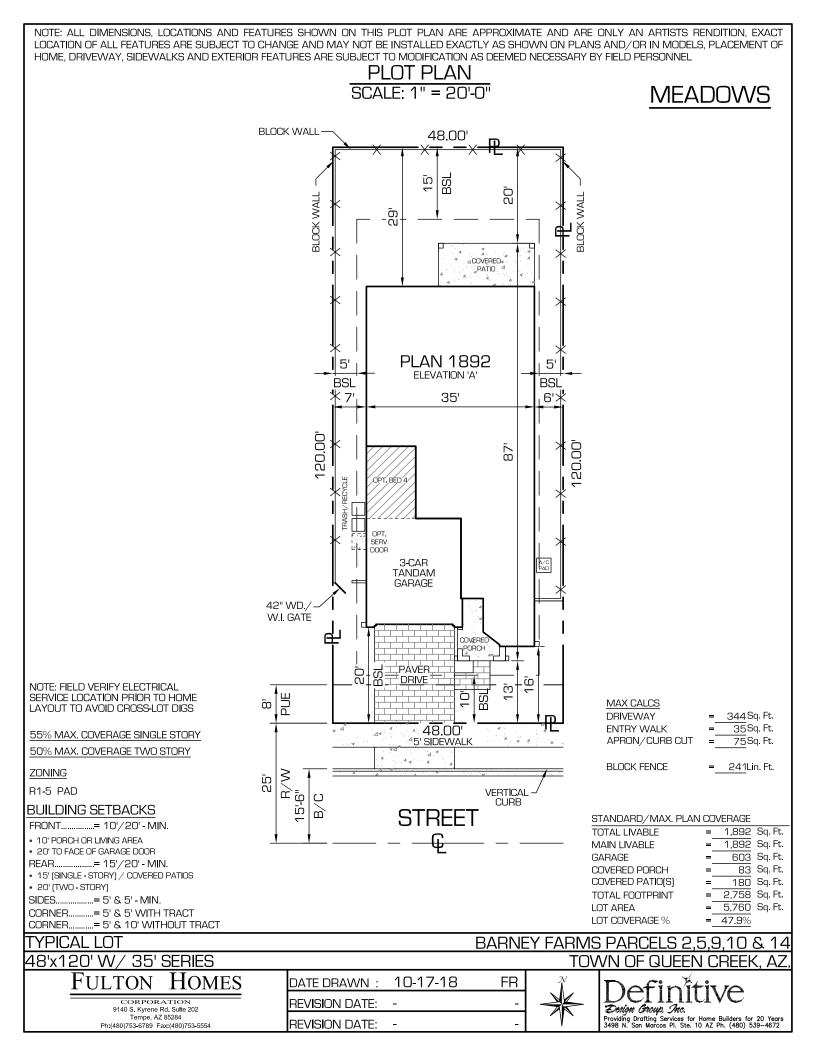

NOTE:

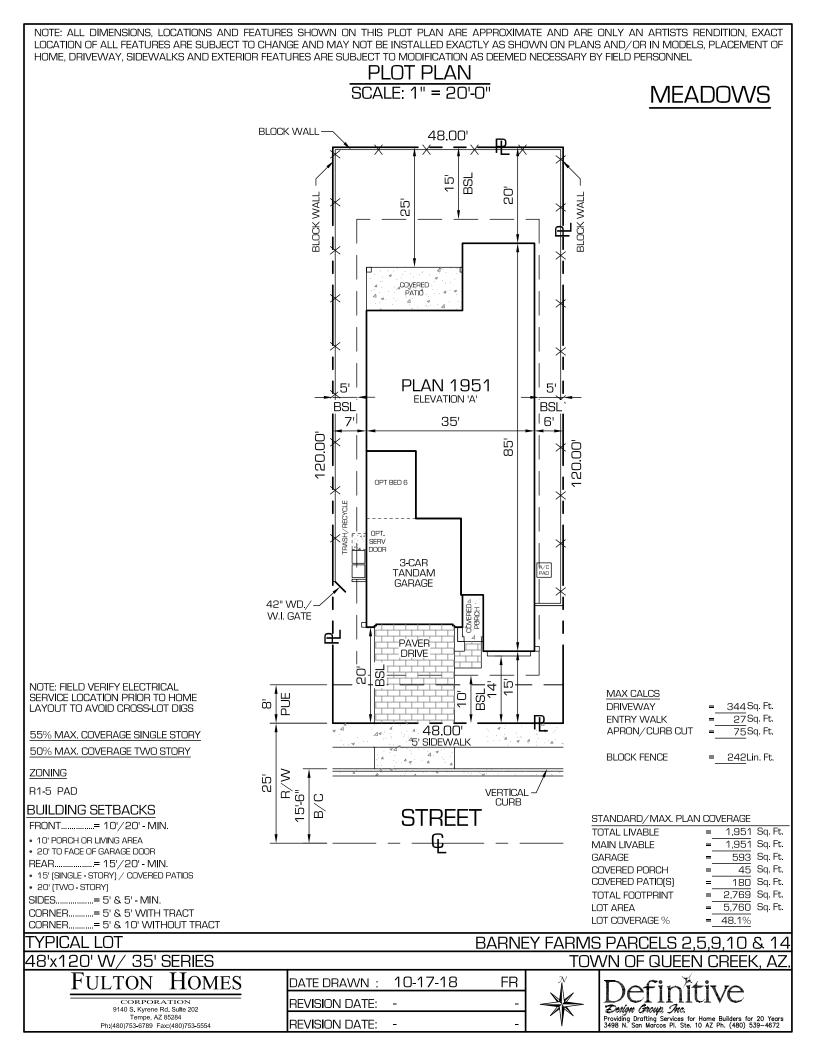

TREE LOCATIONS TO BE COORDINATED WITH FINAL UTILITY DESIGN (FIRE HYDRANT, STREET LIGHTS, ETC).
