(Mallory Ress, Planner I)

Planner Mallory Ress presented a request by Strategic Industrial Properties to rezone a 10-acre site from R1-43 (Rural Estate District) to EMP-A (Office Industrial Park). She outlined the site location, surrounding properties and existing zoning and noted that it borders Light Industrial in the City of Mesa to the north. The request conforms with the 2018 General Plan designation (Industrial) and there are no deviations being requested by the applicant.

Ms. Ress said a neighborhood meeting was held on August 23, 2021 and no members of the public attended and no comments have been received.

Ms. Ress said as part of the request a conceptual site plan was prepared by the applicant to show possible site configurations for a light industrial complex on the 10-acre site. The plan showed an eight building layout and a two building layout. Ms. Ress said these plans are not being approved tonight and a formal site plan is required for review and approval at a later date.

Chair Young opened the public hearing. There were no comments from the public or the Commission and the public hearing was closed.

**6. Final Action:**

- B. (Steven Ester, Planner II).

Planner Steven Ester presented the Rock Point Church Phase III Site Plan to add 59,000 SF expansion to the 20-acre existing site. He outlined the site location, adjacent properties and noted that the church owns the vacant land to the north. Mr. Ester said the project is surrounded by the R1-43 (Rural Residential) zoning district and noted that churches are allowed in all districts.

Mr. Ester said they are proposing to add a facilities maintenance building, children's building, administration building, and café expansion. He presented landscaping, building elevations and parking details. He said the site plan presented tonight is for the new facilities maintenance building only and the other buildings will come back for separate site plan review.

Mr. Ester said the style and architecture for all new buildings will integrate with Phase II to provide consistency across the development and access will remain as-is.

The Commission had questions on parking calculations. Mr. Ester said they have more than adequate parking at this time and additional overflow parking will be provided at future stages and calculations will be addressed.

Commissioner Smith noted the pitched roof on the facilities building and asked where the mechanical is located. Mr. Ester said it is fully screened at ground level behind wood fencing, which adds interest.

Commissioner Smith inquired about the point of entry for the facilities building and asked if the applicant would consider adding more concrete in that area to alleviate dust.

Rock Point Church Pastor Dave Sutherland addressed the overflow parking and said it will be paved when the children's center is built. He explained that the entrance to outdoor storage on the north side of the facilities building will be concrete and he said they would agree to more concrete at the entry point for dust control.

Vice Chair David Gillette declared a conflict and abstained from voting.

**Motion to approve P21-0106 Rock Point Church Phase III Site Plan subject to the Conditions of Approval and with the added stipulation that asphalt or concrete be added to the entry point to the facilities building for dust control.**
