

Town of Queen Creek Website Refresh

Why are we refreshing the website?

The Town's Corporate Strategic Plan includes a goal related to implementing the recommendations and strategies outlined in the Information Technology (IT) Strategic Plan. The IT Strategic Plan recommends updating the Town's website every five years. Our last redesign was in 2018. By refreshing the website with the Town's current provider, Granicus, the Town can take advantage of new technologies at a lower cost than going out for a new website provider.

Project Timeline

By staying with Granicus's Vision platform, the timeline is 9-12 months for the redesign, which began in September.

Current Status

Through user feedback, data and available new technology, the Communications and Marketing division, along with the Communications Resource Team, worked to put together a wireframe with Granicus. This serves as "the skeleton" for the homepage. The design will be applied to the wireframe.

New features include

- Service Finder
- Additional spotlight areas
- Video widget
- QC by the numbers

Town's brand guide

PRIMARY COLOR PALETTE

COATED PAPER/DIGITAL

The Town of Queen Creek has established a color palette for use in all public facing and departmental applications. This includes all Town and department general collateral, uniforms, outdoor signage, vehicle graphics and digital/web applications.

When the Town logo or word mark gonean

or Brown (PMS 462 C, PMS 4625 U).

Accent colors may be used to compliment the primary colors in any application Accent colors may not be applied to the Town logo or word mark.

EXTENDED COLOR PALETTE (DARK)

COATED PAPER/DIGITAL

The Town of Queen Creek has established an extended color palette for use in all public facing and departmental applications to compliment the primary palette (page 1.4).
This includes all Town and department general collateral, uniforms, outdoor signage, vehicle graphics and digital/web applications. Extended colors are also for use in branding and/or applications specific to Town programs, events and all sub brands.

UNCOATED PAPER

To ensure the Town identity maintains the integrity of the primary color palette when printing on uncoated paper, alternate uncoated colors are recommended.

These specifications are to be used only for printing on uncoated papers. Different uncoated fibers and textures may affect the final color. It is recommended that a press-check be conducted to ensure proper color accuracy.
