The Maricopa County Department of Transportation's (MCDOT) **RightRoads Program** is conducting a public open house meeting to gather public input regarding potential improvements to the Riggs Road crossing of Sonoqui Wash. Future improvements include the construction of a six-lane bridge over Sonoqui Wash (east of Hawes Road) to replace the existing un-bridged crossing. Additional improvements include the installation of sidewalks, bike lanes and a raised bridge deck to meet equestrian clearance requirements. The project is being designed in coordination with the Maricopa County Flood Control District's Sonoqui Wash Channelization Project, Phase II and with the Town of Queen Creek.

Public comment will be sought throughout the project. Your input during this conceptual design phase is an integral part of the project design. During this meeting, project team members will present project scope and preliminary bridge design. Stop by anytime between 5:00 and 7:00 p.m. to speak with MCDOT project team members.
