The following is a list of eligible CDBG, ESG and HOME special needs populations. They are not listed in any order. For each group, please check the box to the right, which most accurately ranks the group's relative need in the community. The columns are intended to describe high, medium and low priorities.

Check only one box for each special needs population.

Special Needs Population	This group definitely needs to be served either because of great need or because of high numbers.	This group should be served if funds are available to fund programs that benefit them.	People in this group may be in need, but if funding were available, I would increase funding to the groups in the other two columns.

Needed Facilities and Services (Check one box for each listed facility or service "L/M" means the population of the service area is low-moderate income.)	This definitely needs to be funded some time in the five-year grant cycle.	This should be funded if a special opportunity or special funding presents itself.	I would not recommend funding this activity.

Fair Housing

The Fair Housing Act of 1988 prohibits discrimination in housing choice as long as the person can afford it. In your personal experience or that of people with whom you work, do people face impediments in their search for housing in the community based on one of the following characteristics?

Characteristics protected under the Fair Housing Act of 1988	As long as the person can afford the rent or mortgage, I don't see this characteristic as having any impact on housing choice.	I know people who have experienced difficulty in buying or renting <u>in the community</u> based on this characteristic.	I have personally experienced difficulty in buying or renting <u>in the community</u> based on this characteristic.
